

Our guest lecturer in March was “psychic entertainer” John Domanico, author of *The Psychic Intuitor's Handbook*. John has been a psychic intuitor for many years and puts the emphasis on fun and entertainment.

If you ever wondered how a psychic can read the cards, your palm or tealeaves, then this is the lecture for you! John shared his techniques for us on how psychic readings worked. John covered it all, from palm reading and tarot cards to cold reading techniques. After an informative evening, the gang went off to our local diner.

Our Ring has just booked David Stone to lecture in September. David, from France, is one of the top strolling and close-up magicians around. I know I’m looking forward to it.
