

In November, we were thrilled to host Diamond Jim Tyler as he started a lecture tour of the northeast. Jim is a seasoned pro from Dallas, Texas and he did not disappoint!

He started things off with two wonderful monte routines, Dia-Momte and Mental Monte. He followed up with Telekinetic which is his animated card box that stands up on his hand and then proceeds to open. Next, he demonstrated a nice magic square routine. He followed that with Collateral which is his ring and string routine and Mirrors which is his wild card routine.

He then demonstrated Invisible Dice where a spectator rolls a pair of invisible dice, does some random math calculations and the magician determines the number on each die.

Jim has also written a number of books entitled Bamboozlers which are all sorts of various bar bets and similar bits of business and he proceeded to demonstrate a number of items from these books.

Jim is a really personable guy and if he comes to perform or lecture in your area, check him out. I know you will enjoy it!
